2005-06 ESTIMATES PRESENTATION

INTRODUCTION

The 2005-06 Estimates represent the financial plan of the Province presented by the Government to the House of Assembly for the fiscal year commencing April 1, 2005. It outlines the estimated expenditures and revenues for the year and reflects the policies, programs and priorities of the Government in the form prescribed by the Treasury Board. For comparative purposes, a revised forecast for the previous fiscal year is presented as well as the previous year's budgeted figures, restated where appropriate, to reflect departmental restructuring.

Government is also presenting additional information on consolidated accrual revenues and expenditures (Statements II and III), and information on the consolidated change in net debt and accumulated deficit (Statement IV). The remaining Statements, Exhibits, and Appendices continue to be presented in accordance with the modified cash basis of accounting as described below.

PROGRAM STRUCTURE

The program structure of the Estimates represents the manner in which Government divides the financial plan into areas of responsibility and accountability. The Estimates are classified into the following groups:

Sector - A Sector constitutes a division of the Estimates into broad areas to which funding is provided, that is, General Government, Resource and Social.

Department - A Department represents a major policy area to which funding is provided. Each Department is headed by a Minister who is accountable and responsible for its operations (for example - Justice).

Program - Programs are major groupings of the significant functions and responsibilities performed or delivered by a Department (for example - Public Protection).

Sub-program - Sub-programs are divisions of each program which further define areas of responsibility and accountability for program delivery purposes (for example - Police Protection).

Activity - Activities represent the lowest division of the Program Estimates and constitute a specific service or function being funded (for example - Royal Newfoundland Constabulary). Activities are the level at which the House of Assembly votes funding and are the level used for appropriation control.

EXPENDITURES

Budgetary

Budgetary expenditures are those incurred by Government in the course of achieving its policy and program objectives. Expenditures are provided on a gross basis with related revenues received not being netted against the expenditure. The categories of expenditures are:

Current Account - In addition to expenditures of a housekeeping nature such as salaries, supplies, rentals, and interest; current account also includes operating grants for various programs and organizations such as hospitals, schools and Crown Agencies.

Capital Account - These are expenditures whose benefits normally extend over more than one fiscal year. The types of expenditures included would be construction projects, loans, investments in infrastructure and major equipment purchases.

EXPENDITURES (Cont'd)

Statutory - Expenditures in this category are specifically authorized by Acts of the Legislature. These payments, such as debt expenses, are made under the Authority of the relevant Acts and do not require annual authorization by the Legislature. Such expenditures can fall under the category of either current account or capital account.

Non-Statutory - These are expenditures which require an annually authorized appropriation of the Legislature prior to the expense being incurred. This authorization is secured when the Legislature votes on the various expenditures during debate of the Estimates.

Non-Budgetary

Non-budgetary transactions relate primarily to debt redemption and sinking fund payments. Such expenditures are for the repayment of debt previously incurred and the setting aside of funds for the future repayment of debt.

Classification of Expenditures

Budgetary expenditures are classified into main objects by type of goods or services. The standard main objects used are as follows:

01. Salaries 07. Property, Furnishings and Equipment

02. Employee Benefits 08. Loans, Advances and Investments

03. Transportation and Communications 09. Allowances and Assistance

04. Supplies 10. Grants and Subsidies

05. Professional Services 11. Debt Expenses

06. Purchased Services 12. Information Technology

For efficiency and control purposes, certain major capital expenditures are voted in one Department, for example, alterations and construction of public buildings. These expenditures are then recharged to the appropriate departments.

REVENUES

Classification of Revenues

Revenues are classified into two distinct categories, current revenues and related revenues, both of which include revenues from Provincial and Federal sources.

Current Revenues - This category includes Provincially generated sources such as taxation and fees. The Federal sources include such revenues as Health and Social Transfers, Equalization, and other transfers. Current Revenues are not displayed in the detailed Departmental Estimates.

Related Revenues - This category includes revenues which are a direct result of current and capital expenditures incurred. The Provincial sources include revenues such as interest receipts and sales and services by Government-operated facilities. The Federal sources are mainly the result of cost-sharing agreements between the Province and the Government of Canada, whereby the Province delivers the programs and receives reimbursement from the Government of Canada.

ACCOUNTING PERIOD

In accordance with the Financial Administration Act, Government follows a modified cash system to budget for expenditures and revenues. Expenditures are charged against a budget appropriation in the fiscal year in which payments are made, with exceptions for payments made in April for goods or services received prior to March 31, which are charged back to the previous fiscal year. In the case of Federal revenues, receipts received up to the end of April can be written back to the previous year if they relate to expenditures of that fiscal year.

CROWN AGENCIES

Government has established a number of Crown Agencies and Corporations to help carry out its programs and services to the public. Other than the active operating Agencies referred to below, Government does not have any significant special fund accounts except the Pooled Pension Fund, the Labrador Transportation Initiative Fund and the Consolidated Sinking Funds.

Minister
Confederation Building

SHEILA DEVINE Chairperson & Chief Executive Officer Public Service Commission Sir Brian Dunfield Building

The Public Service Commission operates under the Public Service Commission Act, and has responsibility for establishing and enforcing policy for the protection of the merit principle in recruitment and staffing within the Public Service. It provides a variety of services to Departments and individuals, including the Employee Assistance Program, Graduate Recruitment Program, support for strategic recruitment, and supplemental support for learning and development initiatives.

As part of its legislative mandate, the Commission also undertakes a number of quasi-judicial functions including investigation of staffing complaints, administration of the Management Grievance process and the Classification Appeal Board process and support to the Conflict of Interest Advisory Committee.

MIKE SAMSON Deputy Minister Petten Building

The Department of Fisheries and Aquaculture has a primary mandate to promote the ongoing development of marine fisheries and the aquaculture industry. In support of this mandate, policies and programs relative to culturing, harvesting, processing and marketing are designed to maximize the economic benefits which can be generated by this resource sector. Emphasis is placed on technological innovation, resource management and development, scientific support, quality assurance and value-added processing.

GARY NORRIS Deputy Minister Confederation Building

The mandate of the Department of Tourism, Culture and Recreation is to support economic growth and employment in the tourism industry, cultivate contemporary arts, preserve the Province's cultural heritage, and promote recreation and sport and the benefits of active living for the well being of the people of the Province. This mandate is fulfilled through: the operation and establishment of historic sites, archives, museums, arts and culture centres and recreation facilities; the regulatory protection of archaeological sites, artifacts and historic documents; and the promotion of the living culture, marketing these resources to the tourist markets, enhancing transportation links with markets and developing tourism businesses.

Most of these activities require close cooperation with other Provincial and Federal Departments and Agencies, the private sector and all types of volunteer, development, recreation and heritage preservation groups.

The Department of Education is responsible for developing and administering a provincial system of education which encourages all students to achieve their potential development. It administers a primary, elementary and secondary school system with programs sufficiently flexible to meet the individual needs and capabilities of all children. Specialized educational programs are provided for disabled children who are unable to benefit from regular classroom instruction. The Department is responsible for the provision of literacy, library and information services in the Province and for the operation of the Provincial School for the Deaf.

The Department is also responsible for developing and maintaining a Provincial system of postsecondary education and training which encourages all learners to develop as individuals and to acquire the knowledge and skills necessary to pursue satisfying and productive careers in society.

JOE O'NEILL Chief Executive Officer Labour Relations Agency

The Department of Human Resources, Labour and Employment works collaboratively with community, social and economic development partners to provide people with employment and income programs and services that promote dignity, self-reliance and independence, and reduce barriers to employment. These include income support services, employment and career services with a special emphasis on youth, and labour market and immigration policy, planning and information services.

The Labour Relations Agency is responsible for providing programs and services aimed at fostering a positive labour-management climate conducive to economic growth, competitiveness and prosperity and workplaces where the rights and interests of workers are protected. This responsibility is achieved through the provision of labour relations and labour standards programs, including conciliation and mediation services, preventive mediation, early dispute resolution and investigation, and administration of applicable legislation.

The Workplace Health, Safety and Compensation Review Division adjudicates appeals from workers or employers of decisions of the Workplace Health, Safety and Compensation Commission.

JOHN CUMMINGS, Q.C. Deputy Minister Confederation Building

The Department of Justice provides legal services to Government and is primarily responsible for the protection of citizens of the Province in respect of their persons and property. This objective is met by providing for police protection, the prosecution of alleged offenders, the operation of the court and correctional systems for the Province, services to victims of crime and Legal Aid services. Drafting of legislation for the House of Assembly by the Office of the Legislative Counsel is also provided.

NEWFOUNDLAND AND LABRADOR HOUSING CORPORATION

HON. JOAN BURKE
Minister
Confederation Building

LEONARD SIMMS Chair and Chief Executive Officer

Newfoundland and Labrador Housing Corporation 2 Canada Drive

The primary objective of the Newfoundland and Labrador Housing Corporation is to formulate, coordinate and implement housing policies and programs designed to deliver effective, efficient and integrated responses to meet the social housing needs of the people of Newfoundland and Labrador.

The grant indicated represents the Provincial share of the total expenditure of the Corporation. The programs being delivered are also funded through: block funding from the Federal Government through its housing agency, Canada Mortgage and Housing Corporation, under the 1997 Canada/Newfoundland Social Housing Agreement; cost-shared Provincial Home Repair and Affordable Housing Programs; or by the Newfoundland and Labrador Housing Corporation through bank loans and program revenues.

APPENDIX V

NEWFOUNDLAND AND LABRADOR ESTIMATE OF 2005 TAX EXPENDITURES ESTIMATES 2005-06

The principal function of the tax system is to raise the revenues necessary to fund government expenditures in a manner that is both efficient and equitable. The tax system is also an instrument of policy that serves to advance a wide range of economic, social and other public policy objectives. Tax measures that reflect such objectives include exemptions, deductions, rebates, deferrals and credits, and are typically referred to as "tax expenditures". Tax expenditures can be viewed as substitutes for direct program spending, and are disclosed in the following estimates.
