2002-03 ESTIMATES PRESENTATION

INTRODUCTION

The 2002-03 Estimates represent the financial plan of the Province presented by the Government to the House of Assembly for the fiscal year commencing April 1, 2002. It outlines the estimated expenditures and revenues for the year and reflects the policies, programs and priorities of the Government in the form of a financial plan structured within the framework of the Chart of Accounts. For comparative purposes, a revised forecast for the previous fiscal year is presented as well as the previous year's budgeted figures, restated where appropriate, to reflect departmental restructuring.

PROGRAM STRUCTURE

The program structure of the Estimates represents the manner in which Government divides the financial plan into areas of responsibility and accountability. The Estimates are classified into the following groups:

Sector - A Sector constitutes a division of the Estimates into broad areas to which funding is provided, that is, General Government, Resource and Social.

Department - A Department represents a major policy area to which funding is provided. Each Department is headed by a Minister who is accountable and responsible for its operations (for example - Justice).

Program - Programs are major groupings of the significant functions and responsibilities performed or delivered by a Department (for example - Public Protection).

Sub-program - Sub-programs are divisions of each program which further define areas of responsibility and accountability for program delivery purposes (for example - Police Protection).

Activity - Activities represent the lowest division of the Program Estimates and constitute a specific service or function being funded (for example - Royal Newfoundland Constabulary). Activities are the level at which the House of Assembly votes funding and are the level used for appropriation control.

EXPENDITURES

Budgetary

Budgetary expenditures are those incurred by Government in the course of achieving its policy and program objectives. Expenditures are provided on a gross basis with related revenues received not being netted against the expenditure. The categories of expenditures are:

Current Account - In addition to expenditures of a housekeeping nature such as salaries, supplies, rentals, and interest; current account also includes operating grants for various programs and organizations such as hospitals, schools and Crown Agencies.

Capital Account - These are expenditures whose benefits normally extend over more than one fiscal year. The types of expenditures included would be construction projects, loans, investments in infrastructure and major equipment purchases.

Statutory - Expenditures in this category are specifically authorized by Acts of the Legislature. These payments, such as debt expenses, are made under the Authority of the relevant Acts and do not require annual authorization by the Legislature. Such expenditures can fall under the category of either current account or capital account.

EXPENDITURES (Cont'd)

Non-Statutory - These are expenditures which require an annually authorized appropriation of the Legislature prior to the expense being incurred. This authorization is secured when the Legislature votes on the various expenditures during debate of the Estimates.

Non-Budgetary

Non-budgetary transactions relate primarily to debt redemption and sinking fund payments. Such expenditures are for the repayment of debt previously incurred and the setting aside of funds for the future repayment of debt.

Classification of Expenditures

Budgetary expenditures are classified into main objects by type of goods or services. The standard main objects used are as follows:

- | | |
|---------------------------------------|---|
| 01. Salaries | 07. Property, Furnishings and Equipment |
| 02. Employee Benefits | 08. Loans, Advances and Investments |
| 03. Transportation and Communications | 09. Allowances and Assistance |
| 04. Supplies | 10. Grants and Subsidies |
| 05. Professional Services | 11. Debt Expenses |
| 06. Purchased Services | 12. Information Technology |

For efficiency and control purposes, certain major capital expenditures are voted in one Department, for example, alterations and construction of public buildings. These expenditures are then recharged to the appropriate departments.

REVENUES

Classification of Revenues

Revenues are classified into two distinct categories, current revenues and related revenues, both of which include revenues from Provincial and Federal sources.

Current Revenues - This category includes Provincially generated sources such as taxation and fees. The Federal sources include such revenues as Equalization, Canada Health and Social Transfer and other transfers. Current Revenues are not displayed in the detailed Departmental Estimates.

Related Revenues - This category includes revenues which are a direct result of current and capital expenditures incurred. The Provincial sources include revenues such as interest receipts and sales and services by Government-operated facilities. The Federal sources are mainly the result of cost-sharing agreements between the Province and the Government of Canada, whereby the Province delivers the programs and receives reimbursement from the Government of Canada.

ACCOUNTING PERIOD

Government follows a modified cash system to budget for expenditures and revenues. Expenditures are charged against a budget appropriation in the fiscal year in which payments are made, with exceptions for payments made in April for goods or services received prior to March 31, which are charged back to the previous fiscal year. In the case of Federal revenues, receipts received up to the end of April can be written back to the previous year if they relate to expenditures of that fiscal year.

CROWN AGENCIES

Government has established a number of Crown Agencies and Corporations to help carry out its programs and services to the public. Other than the active operating Agencies referred to below, Government does not have any significant special fund accounts except the Pooled Pension Fund and the Consolidated Sinking Funds.

The mandate of the Department of Tourism, Culture and Recreation is to support economic growth and employment in the tourism industry, cultivate contemporary arts, preserve the Province's natural and cultural heritage, manage the Province's wildlife and inland fish resources and promote recreation and sport and the benefits of active living for the well being of the people of the Province. This mandate is fulfilled through the operation and establishment of parks, historic sites, archives, arts and culture centres and recreation facilities, through the regulatory protection of wildlife and inland fish, ecological reserves, natural areas, rivers, archaeological sites, artifacts and historic documents, by promoting the living culture, marketing these resources to the tourist markets, enhancing transportation links with markets and developing tourism businesses.

Most of these activities require close cooperation with other Provincial and Federal Departments and Agencies, the private sector and all types of volunteer, development, recreation and heritage preservation groups.
